ABSTRACT

The results of an October 1975 survey by the American Society of Allied Health Professions in cooperation by the American Association of Community and Junior Colleges are presented in this directory, updating the 1973 guidance edition. Information is given on 5,624 active and 252 planned health occupations education programs, including programs in public health, special education, and allied health in the areas of patient care, education, public health, health research, and environmental health. The directory is designed primarily for counselors and to fulfill three major purposes: (1) to provide information about the location of programs; (2) to list guidance-oriented information useful for the student's selection of a program; and (3) to present program information in a format that focuses on the educational opportunities available within a specific occupational area. Programs are referenced either by state or by occupational area. Data are provided in three sections: an index of active and planned programs; a list of active programs, by occupational category and award level; and a list of planned programs by occupational category. Appended are: listing of professional organizations; listing of state health careers councils; specific academic awards; survey instruments; and lists of occupational titles. (LBH)

PREFACE

Allied Health Education Programs in Junior and Senior Colleges, 1975-Guidance Edition is a directory of allied health and public health education programs in the United States. It represents the results of an October 1975 survey of such programs conducted in cooperation with the American Association of Community and Junior Colleges by the American Society of Allied Health Professions (ASAHP) under contract (231-75-0024) with the Bureau of Health Manpower (BHM). This directory is an updating of the earlier publication entitled *Allied Health Education Programs In Junior And Senior Colleges 1973 - Guidance Edition*.

A separate directory *Allied Health Education Programs In Junior And Senior Colleges 1975 - Health Planners Edition*, prepared in two volumes, presents the same basic data included in this directory in a manner more specifically directed to needs of health planners and educators. A companion to these two direc-

tories, *Health Occupations Training Programs Administered By Hospitals, April 15, 1976*, developed by the American Hospital Association, under contract with BHM, provides similar information about hospital-based allied health and nurse training programs. Together, these directories provide the most comprehensive and up-to-date guide to allied health training programs available.

This publication was prepared in the Bureau of Health Manpower's (BHM) Division of Associated Health Professions, Thomas D. Hatch, Director, under the guidance of David B. Hoover, Project Officer of the ASAHP contract. Marlene Leonard was the Project Director of the contract for the ASAHP.

Both the ASAHP and BHM wish to thank the responding institutions, without whose help this directory could not have been developed.

INTRODUCTION

This directory provides information on 5,624 active and 252 planned health occupations education programs in junior and senior colleges as of October 1975. The term "health occupations education programs" as used in this directory includes programs for personnel in public health, special education, and allied health who work in the areas of patient care, education, public health, health research, and environmental health. Such workers function at professional, technical, or supportive levels to complement and supplement the activities of physicians, dentists, and registered nurses.

A program could be included as an active program in this directory if 1) students were enrolled on or before October 15, 1975; 2) the reporting institution granted a diploma, certificate, or degree after the professional component of the program had been completed; and 3) the program was at least 36 clock hours in duration.

To make the information more useful to people with different interests, two separate program directories have been published - one for guidance counselors and one for health planners. Although both directories have information on academic description and program size, the Guidance Edition emphasizes application and financial information (both student assistance and costs) for students and counselors. The Health Planners Edition - Volume I emphasizes historical enrollment and graduation data. The Health Planners Edition - Volume II contains summary tabulations for such items as the number of programs by type, the number of enrollees and graduates by type of program, and the constraints for nonexpanding programs.

This Guidance Edition is designed primarily for counselors and to fulfill three major purposes:

1. To provide information about the location of programs available in selected health occupations.
2. To list guidance-oriented information useful for the student's selection of a program appropriate to his needs.
3. To present program information in a format which focuses on the educational opportunities available within a specific occupational area.

To facilitate the reader's use of this directory, programs may be referenced either by State or by occupational area. This arrangement provides flexibility by allowing the user to review all programs offered within a known institution. The data are provided in three sections, which are described below.

Section I. Index of Active and Planned Programs, by Location. This section lists by State each institution's health occupations programs offerings, and the name and title of each institution's contact person to whom inquiries about health occupations programs may be sent. An asterisk next to the occupational title indicates a planned program, one that was not in operation at the time of the survey, but that was expected to be in operation by October 1976. To locate detailed information about a program listed in Section I, consult the page number next to the appropriate occupational title.

Section II. List of Active Programs, by Occupational Category and Award Level. This section provides academic, student aid, and cost data for ongoing programs. The programs in the section are organized into 28 major occupational categories. Each major category is divided into 15 separate levels of education (associate degree, diploma, etc.), based upon the award granted by the sponsoring institution upon completion of the program. After determining the type of training and level of education of interest, the reader may find a specific program under the State and institution offering the program. (For a detailed description of the column headings in Section II, see page xiii.)

Section III. List of Planned Programs, by Occupational Category. This section provides descriptive data about those programs surveyed which were planned to be operational between October 1975 and October 1976. Like the active programs, the planned program listing is also divided into 28 major occupational categories. Within these occupational areas, specific programs are listed under the State and institution offering the program. (For a detailed description of the column headings in section III, see page xvii.)

IMPORTANT NOTES TO STUDENTS

Transfer Programs

Some occupational programs listed in the directory may require the student to transfer to another academic institution or a hospital/professional school for clinical training. In such cases, the clinical requirements must be completed before the award is granted by the institution listed in the directory. As a program's arrangements for clinical training may change and, at times, the student may be required to arrange for his own clinical training at another institution, it is recommended that the student obtain information about the program's current procedures for completing clinical training requirements directly from the institution involved.

Preprofessional Education Programs

This directory does not include preprofessional education programs. An exception, however, is made for baccalaureate programs in speech pathology and audiology. The American Speech and Hearing Association, national accrediting body for speech pathology and audiology programs, considers the master's degree as the basic professional degree in the field, recognizing baccalaureate programs as "preprofessional." The baccalaureate programs are included in the directory because (a) several State departments of education recognize some professional competency at the baccalaureate level and permit graduates of baccalaureate programs to work as speech therapists in public schools, and (b) undergraduate training in speech pathology and audiology is considered necessary for pursuance of study at the master's degree level. The baccalaureate programs are listed in the directory as "Speech Pathology/Audiology (Pre-Master's)."

Health Careers Information

The guidance contact person listed for each institution in Section I, Index of Active and Planned Programs, provides a primary resource for those interested in allied health programs at a particular institution. As a further aid, the following listing provides a representative segment of those professional and governmental agencies which furnish health career information. Space limitations preclude the listing of all groups involved with health training.

For a broad introduction to health careers, consult the *Occupational Outlook Handbook* (Catalogue #L2.3: 1875) published by the U.S. Department of Labor. This book may be ordered from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. The price is \$7.00 and is to be enclosed with the purchase order.

Additional materials on health careers may be obtained from other Federal agencies:

1. The U.S. Office of Education, Division of Vocational and Technical Education - Health Occupations, 7th and D Streets, S.W., Washington, D.C. 20202, furnishes a list of State Boards of Vocational/Technical Education which monitor health-related high school, technical school, community college, and adult education programs.
2. The Alcohol, Drug Abuse and Mental Health Administration, 5600 Fishers Lane, Rockville, Maryland 20852, is a resource for information on men's health careers.
3. The Information Office of the Bureau of Health Manpower, 3700 East West Hwy., Hyattsville, Maryland 20782, handles requests for information on specific health careers, financial assistance for students, and health manpower needs.

Further descriptions of selected health careers can also be obtained through the *Dictionary of Occupational Titles*. Appendix H provides a discussion of this useful reference, as well as a table which matches health occupations listed in the Inventory Glossary with those listed in the *Dictionary of Occupational Titles*.

The *Allied Medical Education Directory*, published by the Council on Medical Education of the American Medical Association, offers detailed descriptions and general educational requirements for those allied health education programs which the Council accredits in collaboration with other professional associations.

Additional professional organizations to be contacted for career information are listed in Appendix C.

Health Careers Councils which exist in many States and communities provide health professions data useful within a specific geographic area. Appendix of this directory lists the name and address of the council serving each State.

METHODOLOGY

Data Collection

This directory is the result of a survey of allied health, public health, and special education programs in junior and senior colleges.

In the Fall of 1975, two-year and four-year colleges and universities which had programs reported in the 1973 edition of this directory were sent detailed program questionnaires for completion. Whenever possible, the survey materials were channeled through one person at each campus who had agreed to serve as the survey's allied health contact person. This provided continuity for the survey and allowed one person at the institution to be responsible for the completeness of the school's reporting. When a contact could not be identified the forms were sent directly to the program director. Survey forms for active and planned programs and a *Glossary of Occupational Titles* were sent. The Glossary provided consistent guidelines for classifying programs.

The Glossary included definitions for the majority of health occupations education programs. As expected, however, additional occupational titles were identified during the course of the survey. A list of these additional titles not originally provided in the Glossary but included in this directory is given in Appendix F.

The 1,429 schools in the 1973 edition represented 5,053 active programs. Since not all institutions included in the *Education Directory - Higher Education, 1974-1975* published by the U.S. Office of Education were included in the 1973 edition of this directory, 1,024 institutions were sent a screener to identify new health occupations programs being offered. Of the 1,024 schools sent a questionnaire, 798 or 76.9 percent responded. The respondents identified 207 active programs. These active programs were then sent a detailed program questionnaire.

To supplement the coverage of active programs, a list of the identified programs was compared with selected, recent professional organization program listings. An additional 28 programs for possible inclusion in the directory were identified through these sources. As a result, a total of 21 active health occupations programs were identified and surveyed for specific program information.

Of the 8,442 active programs identified for possible inclusion in the survey, 2,818 are not included in the directory either because they did not meet the criteria (1,672) or because requested information was not submitted (1,146). As a result, this report provides information about 5,324 active programs in two-year and four-year colleges and universities. In addition, the report also contains information about 252 planned programs in 176 two-year and four-year colleges and universities.

Criteria for Including a Program in the Survey

In the survey, respondents were provided with the definitions, a set of minimum active and planned program requirements, and a list of health and health related occupational categories that were to be excluded from the survey. That information was used by respondents to determine if a program should be reported and at which award level.

Program

A health occupations education program includes formal classroom instruction, laboratory instruction, clinical training, and/or supervised field experience leading to competency in a specific health occupation or profession, and resulting in a degree, diploma, or certificate. Programs offered at different award levels and having different prerequisites are considered to be separate programs. A program may be at any of the following levels:

- *Degree Program.* Results in the awarding of an associate, bachelor's, master's, or doctoral degree.
- *Diploma Program.* Results in a diploma granted for at least 3 but less than 4 years of training after the 12th grade.
- *Occupational/Vocational Certificate Program.* Leads to a certificate awarded for training of at least 36 clock hours duration but not more than 36 months duration.
- *Collegiate Certificate Program.* Leads to a certificate awarded for training (other than continuing education) of more than 36 months beyond the 12th grade, or post-baccalaureate training for which no additional degree is granted.

- *Certificate of Advanced Standing Program.* Leads to a certificate awarded for training which is beyond the master's, but not at the doctoral degree level.
- *Continuing Education Certificate Program.* Leads to a certificate awarded for training to maintain a health worker's proficiency, which signifies evaluation of the worker's participation in the program.

Minimum Active Program Requirements

- First class of students enrolled on or before October 15, 1975.
- Diploma, certificate, or degree granted by the reporting institution after the professional component of the program has been completed.
- At least 36 clock hours in duration.

Minimum Planned Program Requirements

- Planned to become active with the enrollment of its first class between October 15, 1975 and October 17, 1976.
- Diploma, certificate, or degree to be granted by the reporting institution after the professional component of the program has been completed.
- At least 36 clock hours in duration.

Programs Not to be Included

1. Educational programs for the following categories of health and health related occupations:
 - Physicians (M.D., D.O.)
 - Dentists

- Optometrists
 - Pharmacists
 - Podiatrists
 - Veterinarians
 - Natural scientists, e.g. microbiologists
 - Social scientists, including psychologists
 - Nurses (R.N., L.P.N., L.V.N.)
 - Engineers, except programs judged to have significant environmental health or biomedical content.
 - Mathematicians and statisticians, except program judged to have significant health statistics content.
 - Social Workers, except programs judged to have significant medical or psychiatric content.
2. Programs which award a "Certificate of Attendance" only.
 3. Hospital-based programs, unless the hospital is within a university medical center.
 4. Programs in which students are not (a) required to complete all training considered necessary preparation for the occupation before they are awarded a degree, certificate, or diploma by the academic institution or (b) prepared for transfer to another academic program which does not require completion of such training before a degree, certificate or diploma is awarded.

INFORMATION ON COLUMN HEADINGS IN SECTION II. ACTIVE PROGRAMS

Following are descriptions of the column headings in Section II. A complete list of abbreviations is provided in Appendix A. Footnotes used in Section II appear in Appendix B.

Major Category — Twenty-eight major occupational categories are used to group the programs into areas of similar occupational activity. Appendix G includes a Glossary of Occupational Titles, which provides the names and definitions of these categories.

Award Level — Within a major occupational area, the following fifteen categories are used to group programs offering the same level of academic and/or clinical preparation.

Occ/Voc Cert Lt 6 Mo — Occupational/Vocational Certificate programs of less than 6 months duration.

Occ/Voc Cert 6 But Lt 12 Mo — Occupational/Vocational Certificate programs of 6 months but less than twelve months duration.

Occ/Voc Cert 12 But Lt 24 Mo — Occupational/Vocational Certificate programs of 12 months but less than 24 months duration.

Occ/Voc Cert 24-36 Mo — Occupational/Vocational Certificate programs with a duration of 24 through 36 months.

Diploma — Diploma programs.

Associate Degree — Associate Degree programs.

Associate Degree & Cert — Associate Degree and Certificate programs.

Bachelor's Degree — Bachelor's Degree programs.

Bachelor's Degree & Cert — Bachelor's Degree and Certificate programs.

Collegiate Certificate Only — Certificate Programs at or beyond the baccalaureate level of training for which no other award is given.

Master's Degree — Master's Degree programs.

Master's Degree & Cert — Master's Degree and Certificate programs.

Cert of Advanced Standing — Certificate of Advanced Graduate Standing programs beyond the master's degree level but not at the doctoral level.

Doctoral Degree — Doctoral Degree programs.

Continuing Education Cert — Continuing Education Certificate programs.

State — All States, District of Columbia, and Puerto Rico offering programs within each major occupational and award level grouping are listed.

Institution Name — The full name of the institution is used where space permits. Otherwise the name is abbreviated according to the shortened forms used in the *Education Directory — Higher Education, 1974-75*, published by the U.S. Office of Education. The city and zip code of an institution are listed in Section I of this directory.

School Program Title — Program title represents the name by which the program is known at the institution.

Occupational Title — A total of 161 occupational titles are listed in this directory. The titles and definitions for 152 of these are contained in the Glossary of Occupational Titles, included in Appendix G. Programs for the remaining 9 occupations, not specifically listed in the Glossary, are included in the directory since they come within the framework of the survey. These titles are given as Appendix F.

Program Specialization — Specializations offered within programs were reported by respondents in accordance with the following definition: Specialization is an area of concentration within a program that develops a particular expertise and distinguishes one group of workers from others trained in the same program. More specializations were reported by some respondents than could be included. In these cases, the specialization is listed as "various."

Program Accreditation/Approval — Program accreditation/approval means recognition that a program meets the minimum qualifications or standards established by a national agency or national health professional association. The following symbols are used to indicate program accreditation/approval:

YES	— Program is accredited/approved.
IP	— Program accreditation/approval is in process.
CP	— Clinical portion of program is accredited/approved or approval is in process; academic portion is not approved.

- NO — Program accreditation/approval process exists for this type program but is not being sought.
- NEW — Program is too new to seek accreditation/approval.
- NONE — No accreditation/approval process exists for this type program.

Program Accreditation/Approval Status — The status of the program accreditation/approval as reported by the institution is indicated as follows:

- F — Full
- CP — Conditional/Provisional
- IP — In Process

Award Conferred — Eleven general symbols are used in the directory to indicate the type of award conferred by the sponsoring institution upon completion of the program:

- CERT — Occupational/Vocational Certificate or Collegiate Certificate
- DPL — Diploma
- A — Associate Degree
- A, CERT — Associate Degree and Certificate
- B — Bachelor's Degree
- B, CERT — Bachelor's Degree and Certificate
- M — Master's Degree
- M, CERT — Master's Degree and Certificate
- CAGS — Certificate of Advanced Graduate Standing
- D — Doctoral Degree
- C ED — Continuing Education Certificate

These general symbols are used when no specific award level (i.e. B.S., B.A., A.A.S., M.P.H.) was indicated by respondents or when more specific awards were reported than could be accommodated in the space available. Appendix E contains a listing of the specific academic awards conferred.

Length of Program — Respondents were asked to indicate how many calendar months (following *time of entry* for undergraduate programs, or following *matriculation* for graduate programs) are generally necessary for a full-time student, entering without advanced standing in the program, to complete all program requirements. The estimates exclude summer vacation unless summer school is required.

Year Classes Began — The calendar year in which the program first accepted students is listed if the year is after 1961. No entry is shown for years prior to 1961.

Total Enrollment — Respondents were asked to report the total number of full-time and part-time students enrolled in the program as of October 15, 1975. Students in correspondence courses, auditors, and students at branch campuses in foreign countries are excluded from the enrollment figures. New programs which did not have students enrolled on this date are not included in the directory. Established programs for which enrollment figures were not provided, however, are included with a footnote indicating the reason for no enrollment figures. Estimated enrollment figures are listed and footnoted for programs which gave no enrollments but expected to have graduates in 1975-76.

Capacity of Graduating Class — Data provided in this category are estimates of the maximum number of students who could complete this program in the 1975-76 school year under the program's present curriculum, standards, facilities, and resources, given full enrollment.

Number of Applicants — The number listed represents completed applications received for the program's most recent entering class.

Institutional Control — The control of the institution is recorded as reported by the institution in the *Education Directory—Higher Education, 1974-75*. Public institutions are under Federal, State, local, State and local, or State-related control. Private institutions are independent, nonprofit, organized as profitmaking, or affiliated with a religious group.

Program Prerequisites — This item is a combination of the minimum previous level of education and the specific academic background necessary for completion by a student before entering the program. More prerequisites were reported for some programs than could be included. A maximum of four entries is listed.

Number of Times Program is Offered Per Year — The specific number of entering classes accepted for the program each year is indicated for programs offered on a regular basis. "Regular basis" is defined as a definite and periodic schedule for the matriculation of students. Should the program accept students on an irregular basis, the symbol "IR" appears in the directory.

Entrance Requirements — The following abbreviations are used for tests and other requirements to be completed by the student before entering either the institution or the program. There requirements do not include tests advised or necessary for placement purposes only.

- | | |
|-----------------------|--|
| S.A.T. - CEEB | — Scholastic Aptitude Test (CEEB Series) |
| Writing Sample - CEEB | — Writing Sample (CEEB Series) |
| Achievement T. - CEEB | — Achievement Tests (CEEB Series) |

A.C.T.	— American College Testing Program Examination
G.R.E. - Apt.	— Graduate Record Examination - Aptitude Test
G.R.E. - Adv.	— Graduate Record Examination - Advanced Test
Miller Analogy	— Miller Analogy
National Exam.	— Standardized National Examination - Not Elsewhere Classified
Institution Exam.	— Institution Designed Examination
Personal Interview	— Personal Interview
G.P.A.	— Grade Point Average on a 4 Point System
Biographical Info.	— Biographical Material
Audition	— Audition
Portfolio	— Portfolio
Preference/Int. Test	— Preference/Interest Tests
Other	— Other

Financial Information — Five columns in the directory show the general types of financial aid available to students in the program. "Y" indicates that the specified type is available; "N" indicates not available. The five types of aid are:

V.A.	— Veterans Administration
Schships	— General Institutional Scholarships
	— Specific Program Scholarships
	— Federal Government Scholarships

	— State Government Scholarships
	— Traineeships
	— Fellowships
	— Assistantships
Loans	— Federally Insured Loans
	— Federal Government Loans
	— State Government Loans
Work Progs.	— Work/Study Programs
Stipends	— Stipends

The sixth column under aids shows the availability of employment assistance. If students are assisted by the school either through formal or informal methods to find employment upon completion of the program, a notation is made in the directory. "BG" meaning this service is offered before graduation; "AG" meaning after graduation; and "BG/AG", placement assistance given both before and after graduation.

Financial Information—Cost — Separate figures are listed for resident and nonresident costs for completion of the entire program. Costs include tuition, books, laboratory fees, uniforms, and other expenses if reported by the respondent. Room and board are excluded from the costs. The figures given represent estimates as of October 1975, and will change as educational fees continue to escalate. The institution's admissions office should be contacted for the most recent cost data.

INFORMATION ON COLUMN HEADINGS IN SECTION III. PLANNED PROGRAMS

Following are descriptions of the column headings in Section III. A complete list of abbreviations is provided in Appendix A.

Major Category, Occupational Title, State, Institution Name, and School Program Title — An explanation of these items is provided on page xiii.

Year to Begin — Respondents were asked to provide the month and year in which the program plans to enroll its first class. In the directory the last two digits of the year are listed along with the following two letter abbreviations for the month in which the program will begin:

JA — January
FB — February
MR — March
AP — April
MY — May
JE — June

JU — July
AU — August
SE — September
OT — October
NV — November
DE — December

Award to be Conferred — For a list of the awards to be conferred by sponsoring institutions and their corresponding abbreviations, turn to the Award Conferred section on page xiv.

Length of Program — Length of the program is the number of calendar months, exclusive of vacation time, that will be required for a student to complete the program.

Capacity of Entering Class — The number listed is the respondent's estimate of the size of the program's first class.

APPENDIX B

FOOTNOTES

- 1 Program is being phased out.
- 2 This figure represents the cost to out-of-state students. Costs to out-of-county students differ from the listed figures.
- 3 Figures represent a joint program between Aquinas Junior College and Vanderbilt University.
- 4 Program reported past and projected graduate figures but had no students enrolled as of October 15, 1975 because students are usually enrolled in Spring, Summer, or Winter.
- 5 Program reported past and projected graduate figures but had no students enrolled as of October 15, 1975.
- 6 Program is being temporarily suspended for review purposes. Enrollment figures are not available.
- 7 Program is offered on a need basis only. Enrollment figures are not available.
- 8 Figures represent a joint program between Trident Technical College — North Campus and the Medical University of South Carolina. Trident grants the Associate degree and the Medical University grants the Certificate.
- 9 Figures represent a joint program between Tennessee State University and Meharry Medical College. Tennessee State University grants the Bachelor's degree and Meharry grants the Certificate.
- 10 Figures represent a joint program between Jefferson Community College and the University of Kentucky. Jefferson Community College grants the Associate degree. The Certificate is granted jointly.
- 11 Program is being revised. Enrollment figures are not available.
- 12 Figures represent a joint program between Fisk University and Meharry Medical College. Fisk grants the Bachelor's degree and Meharry grants the Certificate.
- 13 Figures represent a joint program between Galveston College and the University of Texas Medical Branch at Galveston. Galveston College grants the Associate degree and the Medical Branch grants the Certificate.
- 14 Figures include students in both Associate and Certificate levels of this program.
- 15 Students may plan their own program within this open college. Figures represent Bachelor and Associate degree students enrolled in the health area.
- 17 Enrollment figures are not available for this program since the Fall 1975 class was temporarily postponed.
- 18 Program is offered every other year. No students were enrolled during this reporting period.
- 20 Program is being phased out. An Associate degree program will be offered September 1976.
- 21 Figures are included in those given for the Associate degree program.
- 22 Program is being phased out. A Diploma program will be offered September 1976.
- 23 Figures for this program are listed under Galveston College.
- 24 Program is being phased out. A Bachelor's + Certificate program will be offered September, 1976. California State University at Northridge will grant the Bachelor's degree, and the University of California at Los Angeles will grant the Certificate.
- 25 Program is being phased out. A Master's degree program will be offered September 1976.
- 26 Figures represent a joint program between the University of California at Los Angeles and Santa Monica College. Santa Monica College grants the Associate degree and the University of California at Los Angeles grants the Certificate. Enrollment figures are listed under Santa Monica College.
- 27 Figures represent a joint program between Seton Hall University and the College of Medicine and Dentistry of New Jersey. Enrollment figures are listed under Seton Hall University.
- 28 Figures represent estimated October 15, 1975 enrollments as obtained from the California State University and Colleges Health Manpower Education Project. Past graduates were also obtained from this source.
- 29 Figures represent actual October 15, 1975 enrollments as obtained from the California State University and Colleges Health Manpower Education Project. Past graduates, if given, were also obtained from this source.
- 30 Figures represent estimated October 15, 1975 enrollments as obtained from the California State University and Colleges Health Manpower Education Project. Past graduate figures were taken from this source and the 1973 Inventory of Allied Health Education Programs.
- 31 Figures represent actual October 15, 1975 enrollments as obtained from the California State University and Colleges Health Manpower Education Project. Past graduate figures were taken from this source and the 1973 Inventory of Allied Health Education Programs.
- 32 Enrollment and past graduate figures are not available because the program data could not be separated from the California State credential enrollment figures.
- 33 Data represents a joint program between the California State University at Los Angeles and the University of California at Los Angeles, with both institutions granting the degree. October 15, 1975 enrollment figures were not available from the California State University and Colleges Health Manpower Education Project, but past graduate figures were taken from this source.
- 34 October 15, 1975 enrollment figures were not available from the California State University and Colleges Health Manpower Education Project, but past graduate figures were taken from this source.
- 36 Figures represent a joint program between Essex County College and the College of Medicine and Dentistry of New Jersey. Essex County College grants the Associate degree, and the College of Medicine and Dentistry of New Jersey grants the Certificate.

APPENDIX B—FOOTNOTES

(Continued)

- 37 Program is being phased out. A Bachelor's degree program was initiated in Fall, 1975.
- 38 Figures represent students in the last year of a consortium program among the University of Alabama at Birmingham and the following colleges:

Alexander City State Junior College
(S.D.) Bishop State Junior College
Brewer State Junior College
(John. C.) Calhoun State Community College
Enterprise State Junior College
(Jimmy) Faulkner State Junior College
Gadsden State Junior College
Jefferson Davis State Junior College
Jefferson State Junior College
(T.A.) Lawson State Junior College
Northeast State Junior College
Northwest Alabama State Junior College
Patrick Henry State Junior College
Snead State Junior College
Southern Union State Junior College
(George C.) Wallace State Junior College
(George C.) Wallace State Technical Junior College
(Lurleen B.) Wallace State Junior College
Southern Benedictine College
Walker College
Livingston University
Alabama Christian College
Chattahoochee Valley Community College

The university grants the Certificate and each college grants the Associate degree. First year enrollments are located under the respective colleges if figures were reported by that college.

- 39 Figures represent the first year of a consortium program between this college and the University of Alabama at Birmingham. The University grants the Certificate and the college grants the Associate degree. The second year of enrollment figures are located under the listing for the University of Alabama at Birmingham.
- 40 Figures represent the combined response for all members of the consortium program.
- 41 Figures are included with those listed for the University of Alabama consortium program.
- 42 This is a consortium program among the following colleges:
- Alexander City State Junior College
(S.D.) Bishop State Junior College
Brewer State Junior College
(John C.) Calhoun State Community College

Enterprise State Junior College
(Jimmy) Faulkner State Junior College
Gadsden State Junior College
Jefferson Davis State Junior College
Jefferson State Junior College
(T.A.) Lawson State Junior College
Northeast State Junior College
Northwest Alabama State Junior College
Patrick Henry State Junior College
Snead State Junior College
Southern Union State Junior College
(George C.) Wallace State Junior College
(George C.) Wallace State Technical Junior College
(Lurleen B.) Wallace State Junior College
Southern Benedictine College
Walker College
University of Alabama
Chattahoochee Valley Community College
Livingston University
Alabama Christian College

- 43 Figures represent a joint program between the University of Kansas at Lawrence and the University of Kansas Medical Center. The University of Kansas at Lawrence grants the Bachelor's degree and the Medical Center grants the Certificate.
- 44 Figures include students in both Associate and Bachelor's levels of the program.
- 45 Figures are included in those given for the Bachelor's degree program.
- 46 Program has not reported October 15, 1975 enrollments. Past graduate data was obtained from the American Public Health Association.
- 47 Figures include students from the Louisiana State University Medical Center at New Orleans, the Louisiana State University at Baton Rouge and the University of New Orleans.
- 48 Figures represent a joint program between this institution and the Louisiana State University Medical Center at New Orleans. Fourth year enrollments are included in those given for the Louisiana State University Medical Center.
- 49 Figures represent a joint program between this institution and the Louisiana State University Medical Center at New Orleans.
- 50 Figures include students in the second year of the program who remained at their respective junior college for clinical training instead of transferring to the Regional Technical Institute.
- 51 Program is a cooperative program between Beloit College and Rush University. The Bachelor's degree is awarded by Beloit College simultaneously with a Master's degree awarded by Rush University.

SUPPLEMENT TO THE GLOSSARY OF OCCUPATIONAL TITLES

Collegiate educational programs to prepare the following types of individuals are now being conducted or are planned for the 1976-77 academic year. These titles are not included in the Glossary of Occupational Titles (Appendix G) because the programs were discovered only during the course of the survey.

Occupational Code	Occupational Title
0138	Medical/Dental Business Manager
0143	Medical Insurance Clerk
1317	Emergency Rescue Technician
1603	Central Service Technician
3450	Hearing Aide Technician
4375	Spinal Cord Injury Technician
7613	Drama Therapist
9130	Veterinary Hospital Assistant/Technician
9537	Health Professionals — Not Elsewhere Classified

SURVEY INSTRUMENTS

INSTRUCTIONS FOR QUESTIONNAIRE II

RETURN OF QUESTIONNAIRE: Please complete this questionnaire and return it to the Society no later than three weeks upon receipt.

GENERAL INSTRUCTIONS: A separate questionnaire must be completed for each program. PROGRAMS OFFERED AT DIFFERENT AWARD LEVELS AND HAVING DIFFERENT PREREQUISITES ARE CONSIDERED TO BE SEPARATE PROGRAMS AND REQUIRE A SEPARATE FORM. Questions about the survey form should be directed to Ms. Linda Carter at Society headquarters, One Dupont Circle, Suite 300, Washington, D.C. 20036, Area Code 202, Phone 293-1652.

DEFINITIONS AND REPORTING CRITERIA:

PROGRAM

A health occupations education program, for purposes of the Inventory, includes formal classroom instruction, laboratory instruction, clinical training and/or supervised field experience, leading to competency in a specific health occupation or profession, and resulting in a degree, certificate, or diploma.

The following requirements must be met for the inclusion of a program in the Inventory:

- A diploma, certificate, or degree must be granted by the reporting institution. This award must be granted AFTER the professional and didactic components of the program have been completed.
- The program must have matriculated its first class of students on or before October 15, 1975.
- The program must be at least 36 clock hours in duration.

AWARD LEVEL

Degree, diploma, and certificate programs should be reported in this survey and are defined as follows:

- **DEGREE PROGRAM:** Any program which results in the awarding of an associate, bachelor's, master's, or doctoral degree.
- **DIPLOMA PROGRAM:** Any program which results in a diploma granted for at least 3 but less than 4 years of training after 12th grade.
- **CERTIFICATE PROGRAM:** All of the following certificates should be reported:
 - **OCCUPATIONAL VOCATIONAL CERTIFICATE:** Certificate awarded for training of at least 36 clock hours duration but not more than 36 months duration after matriculation in the program.
 - **COLLEGIATE CERTIFICATE:** Certificate awarded for training (other than continuing education) of more than 36 months beyond the 12th grade, or post-baccalaureate training for which NO additional degree is granted.
 - **CERTIFICATE FOR ADVANCED STANDING:** Certificate awarded for training which is beyond the master's but NOT at the doctoral degree level.
 - **CONTINUING EDUCATION CERTIFICATE:** Certificate awarded for training to maintain a health worker's proficiency, which signifies evaluation of the worker's participation in the program.

INCLUSIONS

The enclosed GLOSSARY OF OCCUPATIONAL TITLES represents examples of health occupations whose education will be included in the Inventory. This list is not intended to be all inclusive. Programs for occupations not specifically listed should be reported if you consider them to be within the framework of the GLOSSARY.

EXCLUSIONS

Do not report the following program types.

- Programs that are hospital based for which your institution serves as an affiliate unless the academic institution grants the award and/or the hospital is a part of the degree granting institution.
- Programs which award only a "Certificate of Attendance".
- Programs leading to the M.D. or D.O. degrees, graduate and continuing education of physicians, and premedical courses.
- Programs for dentists, optometrists, podiatrists, pharmacists, and veterinarians, including continuing education for these health professionals.
- Programs leading to licensure as R.N., L.V.N., L.P.N., and programs of continuing education for such persons, but programs for nursing-related occupations are included.
- Programs for engineers at all levels with the exception of those programs which you judge to have a significant biomedical/environmental health content or emphasis.
- Programs for natural scientists such as biologic and microbiologic scientists.
- Programs for social scientists, including psychologists.
- Programs for social workers at all levels with exception of those programs which you judge to have a significant medical or psychiatric content or emphasis.
- Programs for mathematicians and statisticians at all levels with the exception of those programs which you judge to have a significant health statistics content and emphasis.

PLEASE PRINT USING BLUE OR BLACK
INK WHEN COMPLETING THIS FORM

QUESTIONNAIRE II

NOTE: This information is being collected under a Federal contract. Response is voluntary. There is no penalty or loss of benefit for non-response. The information will not be treated as confidential.

SECTION A—INSTITUTION IDENTIFICATION

1. Responding Institution

Name

City

State

Zip

2. What type of Institution is represented by this response? (Check The ONE Which Best Describes The Location of Your Program.)

- (1) ☐ MAIN CAMPUS OF A MULTI-CAMPUS INSTITUTION
- (2) ☐ BRANCH CAMPUS OF A MULTI-CAMPUS INSTITUTION
- (3) ☐ PEER CAMPUS OF A MULTI-CAMPUS INSTITUTION (Equal Status Campuses With Central Administration But No Defined "Main Campus")
- (4) ☐ COLLEGE/UNIVERSITY WITH NO BRANCH CAMPUSES
- (5) ☐ MEDICAL CENTER/HOSPITAL ADMINISTRATIVELY LOCATED WITHIN COLLEGE/UNIVERSITY
- (6) ☐ MEDICAL CENTER/HOSPITAL ADMINISTRATIVELY UNRELATED TO COLLEGE/UNIVERSITY

SECTION B—PROGRAM IDENTIFICATION

3. From the enclosed GLOSSARY OF OCCUPATIONAL TITLES, indicate in the boxes below the TWO-DIGIT number of the major category into which your program falls.

--	--

MAJOR CATEGORY

4. From the occupational titles listed under the major categories of the GLOSSARY, indicate in the boxes below the FOUR-DIGIT code number of the occupation which most closely resembles that for which your students are prepared.

--	--	--	--

OCCUPATIONAL TITLE

If nothing in the GLOSSARY approximates the occupational title for which your students are being prepared, indicate the occupational title which describes your training efforts.

If you have indicated that no occupational title in the GLOSSARY approximates that for which your students are being prepared, provide a description of the duties commonly associated with this occupational title.

If your program's occupational title was not listed in the GLOSSARY, please send any materials you have to describe further your program, i.e., catalog, brochure, etc., when returning the questionnaire.

5. By what title is this program known at your institution?

6. Does this program have a specific public health orientation or emphasis? Check ONE of the boxes below.

- ☐ Yes, Program is Located within a School of Public Health
- ☐ Yes, Program has a Public Health Emphasis but is NOT Located within a School of Public Health
- ☐ No, Program has no Public Health Orientation or Emphasis

APPENDIX G—SURVEY INSTRUMENTS

(Continued)

7 Complete all lines necessary to identify the specific academic organizational unit in which this program is located

COLLEGE

SCHOOL

DIVISION

DEPARTMENT

SECTION C—PROGRAM CHARACTERISTICS

8 Indicate the type of program you are reporting **CHECK ONLY ONE.**

- (1) ☐ **BASIC OCCUPATIONAL PREPARATION:** Program designed to provide students with the knowledge and skills needed to work in a specific occupation at the entry level of that occupation. Admission to program does not require previous formal training in the occupation but may build on previous informal training or practical experience. Typically, this type of program grants the "first professional" degree, leads to certification or licensure, or prepares the student for an entry-level job. The program may be academic at the undergraduate level or may be non-academic.
- (2) ☐ **ADVANCED EDUCATION OR TRAINING:** Program designed to provide health workers with formal education or training beyond that which is offered as "Basic Occupational Preparation", AND which confers additional academic credit or professional recognition in a specific discipline or occupation. This type of program includes **SPECIALTY TRAINING** which qualifies the individual in a recognized specialty of his discipline, for which there are specific educational requirements beyond "Basic Occupational Preparation".
- (3) ☐ **CONTINUING EDUCATION:** Program of educational activities designed to maintain a health worker's proficiency in his occupation. Continuing education up-dates "Basic Occupational Preparation" or "Advanced Education".
- (4) ☐ **TEACHER TRAINING:** Program which provides individuals **ALREADY TRAINED** in a health profession with competency as teachers or as educational program managers. Teacher training may include some elements which are advanced education or training, but it is never limited to this.

9 Within this program may a student elect a specialization?

Specialization is an area of concentration within a program that develops a particular expertise and distinguishes one group of workers from others trained in the same program, e.g., some institutions offer degree programs in radiologic technology with specialization in medical radiography, nuclear medicine, or radiation therapy.

NOTE: If you consider a specialization to be a separate program (see definition of "program" found in the INSTRUCTIONS), report it on a separate questionnaire.

- (1) ☐ **NO SPECIALIZATION OFFERED**
- (2) ☐ **SPECIALIZATION IS OFFERED (Specify below a maximum of four specializations)**

10. Indicate the MINIMUM previous education REQUIRED for entry into this program.

NOTE: If it seems appropriate for you to check more than one, you may be reporting more than one program on this form. Please re-examine the definition of "program" found in the INSTRUCTIONS.

(01) ☐ 8TH GRADE OR LESS

(02) ☐ SOME HIGH SCHOOL (Specify minimum grade) _____

(03) ☐ HIGH SCHOOL DIPLOMA OR CERTIFICATE OF HIGH SCHOOL EQUIVALENCY

(04) ☐ LESS THAN 2 YEARS COLLEGE

(05) ☐ 2 YEARS COLLEGE (without Degree)

(06) ☐ ASSOCIATE DEGREE

(07) ☐ 3 YEARS COLLEGE

(08) ☐ 4 YEARS COLLEGE (without Degree)

(09) ☐ BACHELOR'S DEGREE

(10) ☐ MASTER'S DEGREE

(11) ☐ DOCTORAL DEGREE

SPECIFIC HEALTH TRAINING

(12) ☐ Basic Preparation in Occupation or Discipline for which this is an Advanced Course

(13) ☐ Pre-professional Education in the Health Field Represented by this Program

(14) ☐ Registered Nurse Preparation

(15) ☐ Certification or Registration in an Occupation Other than the Occupational Area Covered by this Program (ASMT, ARRT, COTA, etc.)

(16) ☐ Other Specific Health Training, i.e., Ambulance Attending, First Aid, etc. (Please Specify) _____

☐ OTHER MINIMUM EDUCATION REQUIRED (Please Specify) _____

11. Indicate below ONLY the specific academic background(s) REQUIRED for entry into this program. Beginning with number "1" rank the REQUIRED background(s) in their order of importance for entry into the program (i.e., 1 = most important).

(01) ☐ NONE

(02) ☐ BIOLOGICAL SCIENCES

(03) ☐ CHEMICAL SCIENCES

(04) ☐ CLERICAL SKILLS

(05) ☐ FINE ARTS

(06) ☐ GENERAL SCIENCES

☐ REQUIRED ACADEMIC BACKGROUND NOT ELSEWHERE CLASSIFIED (Specify) _____

(07) ☐ INDUSTRIAL ARTS

(08) ☐ LIBERAL ARTS

(09) ☐ MATHEMATICS

(10) ☐ PHYSICAL EDUCATION

(11) ☐ PHYSICAL SCIENCE

(12) ☐ SOCIAL/BEHAVIORAL SCIENCES

APPENDIX 3—SURVEY INSTRUMENTS

(Continued)

12. Indicate the level at which this program is offered and the specific award granted upon completion of the program (i.e., BS, BA, MPH, etc.). **CHECK ONLY ONE** (Note: If it seems appropriate for you to check more than one, you may be reporting more than one program on this form. Please re-examine the definition of "program" found in the INSTRUCTIONS.)

LEVEL OF OFFERING	SPECIFIC AWARD CONFERRED
(01) ☐ OCC/VOC CERTIFICATE I (Less than 6 months)	_____
(02) ☐ OCC/VOC CERTIFICATE II (6 but less than 12 months)	_____
(03) ☐ OCC/VOC CERTIFICATE III (12 but less than 24 months)	_____
(04) ☐ OCC/VOC CERTIFICATE IV (24-36 months)	_____
(05) ☐ DIPLOMA	_____
(06) ☐ ASSOCIATE DEGREE	_____
(07) ☐ ASSOCIATE DEGREE + CERTIFICATE	_____
(08) ☐ BACHELOR'S DEGREE	_____
(09) ☐ BACHELOR'S DEGREE + CERTIFICATE	_____
(10) ☐ COLLEGIATE CERTIFICATE ONLY (Training at or beyond baccalaureate level)	_____
(11) ☐ MASTER'S DEGREE	_____
(12) ☐ MASTER'S DEGREE + CERTIFICATE	_____
(13) ☐ CERTIFICATE OF ADVANCED STANDING (Training beyond master's degree level but not at doctoral degree level)	_____
(14) ☐ DOCTORAL DEGREE	_____
(15) ☐ CONTINUING EDUCATION CERTIFICATE	_____

APPENDIX G—SURVEY INSTRUMENTS
(Continued)

13. In what collegiate year(s) do students without advanced standing GENERALLY enter this program? Your response should reflect the years of student enrollment to be given in Item 23, page 11. Check all levels below which seem appropriate.

- (1) ☐ NOT APPLICABLE (Graduate Program)
- (2) ☐ STUDENTS NOT CONSIDERED TO BE ENROLLED IN COLLEGIATE PROGRAM
- (3) ☐ 1ST (or Freshman)
- (4) ☐ 2ND (or Sophomore)
- (5) ☐ 3RD (or Junior)
- (6) ☐ 4TH (or Senior)
- (7) ☐ 5TH (Pre-Baccalaureate Clinical Year)

14. Indicate the MINIMUM number of calendar months generally necessary for a full-time student entering without advanced standing in the program to complete all program requirements, following TIME OF ENTRY shown in Item 13 (above) for undergraduate programs or following matriculation for graduate programs. Please enter number of weeks if the program is less than one (1) month in duration (EXCLUDE summer vacation unless summer school is REQUIRED to complete this program in the average amount of time.)

MONTHS

WEEKS (Enter, only if program
is less than one month)

15. TO BE COMPLETED BY CERTIFICATE AND DIPLOMA PROGRAMS ONLY

Indicate below both the number of clock hours that a student spends in receiving clinical and/or didactic instruction in a normal week of training and the TOTAL number of clock hours spent in receiving instruction throughout the duration of the program as indicated in the above, Item 14.

HOURS PER WEEK

TOTAL HOURS

APPENDIX G—SURVEY INSTRUMENTS

(Continued)

16 Is your program affiliated with one or more schools, agencies, hospitals, etc., for the purpose of providing some portion of the clinical training and/or supervised field experience required by your institution? Please include Medical Centers, Medical Schools, Colleges of Medicine, etc. located within or outside of your school's administrative structure.

(1) ☐ YES, ANSWER ITEMS 17-18

(2) ☐ NO, PROCEED TO ITEM 19

17 If your answer to Item 16 was "YES", please complete the following chart. Count each affiliate institution under the ONE "Institution Type" which most closely approximates the facility providing the clinical training and/or supervised field experience required by your program.

INSTITUTION TYPE	NUMBER OF AFFILIATED INSTITUTIONS			NUMBER OF SPACES FOR YOUR STUDENTS	
	Number Located Within Your School's Administrative Structure (A)	Number Located Outside Your School's Administrative Structure (B)	Number Having Written Affiliation Agreements With Your Institution (C)	Number of Guaranteed Spaces Reserved For Your Students (D)	Number of Spaces Usually Available To Your Students Over and Above Those Guaranteed (E)
(01) HOSPITAL (Other than a University Based Center)					
(02) FACILITY (Resident and Out-Patient) FOR MENTALLY RETARDED, PHYSICALLY HANDICAPPED, EMOTIONALLY DISTURBED					
(03) OUT-PATIENT CLINIC					
(04) NURSING HOME/EXTENDED CARE FACILITY					
(05) SOCIAL SERVICE AGENCY					
(06) MEDICAL CENTER (University)					
(07) LABORATORY					
(08) PRACTITIONER'S OFFICE					
(09) STATE/LOCAL HEALTH DEPT					
(10) VOLUNTARY AGENCY (i.e., Heart Fund, Cancer Society)					
(11) CORRECTIONS INSTITUTION					
(12) COMPREHENSIVE HEALTH PLANNING AGENCY					
(13) DAY CARE CENTER					
(14) ELEMENTARY/SECONDARY SCHOOL DISTRICTS					
(15) INSURANCE OFFICE					
(16) OTHERS (Please Specify)					

APPENDIX G—SURVEY INSTRUMENTS

(Continued)

18. Does any member of an affiliate institution OUTSIDE your school's administrative structure (as reported in Column B, Item 17), who is concerned with the instruction or supervision of your students, have an appointment on your faculty?

(1) ☐ YES

(2) ☐ NO

If "YES", how many of those institutions listed in Column B, Item 17, have a member of their staff on your faculty?

NUMBER

19. Who arranges for a student to attend an affiliate institution? **CHECK ONLY ONE**

(1) ☐ FACULTY MEMBER FROM YOUR INSTITUTION

(2) ☐ STUDENT HIMSELF

(3) ☐ BOTH OF THE ABOVE SITUATIONS EXIST WITHIN THIS PROGRAM

(4) ☐ COOPERATIVE ARRANGEMENT BETWEEN FACULTY MEMBER AND AFFILIATE

(5) ☐ OTHER (Please Specify) _____

20. For the departmental courses structured solely for students in this program, please indicate the number of faculty by the approximate percentage of their time spent teaching and/or supervising students in this program. Include the faculty for the clinical and/or didactic portions of the program, regardless of the faculty member's full-time departmental appointment. Do NOT include time spent by faculty member's supervision of special projects, theses, or dissertations.

NUMBER OF FACULTY WITHIN PERCENTAGE OF TIME SPENT TEACHING AND/OR SUPERVISING

100%

99% to 80%

79% to 60%

59% to 40%

39% to 20%

19% or less

A

B

C

D

E

F

G

Of the faculty above, what is the total number of Full-time and Full-time Equivalent faculty?

21. Is this program accredited or approved by a national agency or national health professional association? (Exclude general accreditation of institution as a whole or budgetary approvals by funding agencies)

Accreditation/Approval: The process by which an agency or organization evaluates and recognizes a program of study as meeting certain predetermined qualifications or standards. For this survey, no state or regional agencies/organizations will be reported.

(1) ☐ PROGRAM IS ACCREDITED/APPROVED **PROCEED TO ITEM 22**

(2) ☐ PROGRAM ACCREDITATION/APPROVAL IS IN PROCESS **PROCEED TO ITEM 22**

(3) ☐ CLINICAL PORTION OF PROGRAM IS ACCREDITED/APPROVED OR APPROVAL IS IN PROCESS; ACADEMIC PORTION IS NOT APPROVED **PROCEED TO ITEM 23**

(4) ☐ PROGRAM ACCREDITATION/APPROVAL PROCESS EXISTS FOR THIS TYPE PROGRAM BUT IS NOT BEING SOUGHT **PROCEED TO ITEM 23**

(5) ☐ PROGRAM IS TOO NEW TO SEEK ACCREDITATION/APPROVAL **PROCEED TO ITEM 23**

(6) ☐ NO ACCREDITATION/APPROVAL PROCESS EXISTS FOR THIS TYPE PROGRAM **PROCEED TO ITEM 23**

(09) ☐ 1963-64

(14) ☐ 1968-69

(19) ☐ 1973-74

(05) ☐ 1956-60

(10) ☐ 1964-65

(15) ☐ 1969-70

(20) ☐ 1974-75

- 29 For each school year, 1967-75, in which your program was active (as indicated in Item 28), enter the number of students who graduated or otherwise successfully completed this program. (If more than one class per year completed the program, please combine the number of graduates for each year.) Enter a "0" if there were no graduates for a particular year in which the program was active.

(A) 1967-68	(C) 1969-70	(E) 1971-72	(G) 1973-74
(B) 1968-69	(D) 1970-71	(F) 1972-73	(H) 1974-75

- 30 Estimate the number of students who are expected to complete this program successfully in the next three years. (If more than one class per year is expected to complete the program, please combine the number of graduates for each year.) Enter a "0" if no graduates are anticipated for a given year.

(A) 1975-76	(B) 1976-77	(C) 1977-78
----------------------------------	----------------------------------	----------------------------------

- 31 Are you now implementing or planning to implement within the next 2 years a significant change in this program's enrollment?

(1) ☐ NO CHANGE IS PLANNED

PROCEED TO ITEM 32

(2) ☐ YES, PROGRAM IS BEING EXPANDED

PROCEED TO ITEM 33

(3) ☐ YES, PROGRAM IS BEING CURTAILED

PROCEED TO ITEM 32

(4) ☐ YES, PROGRAM IS BEING PHASED OUT DATE OF FINAL ENTERING CLASS

PROCEED TO ITEM 32

APPENDIX G—SURVEY INSTRUMENTS

(Continued)

32. If this program is not expanding, what reasons prevent or make unwise the expansion of this program? Please check the degree of constraint beside each reason.

(1) ☐ Check if program's enrollment is satisfactory. **PROCEED TO ITEM 33**

	REASON FOR CONSTRAINT	NO CONSTRAINTS	MODERATE CONSTRAINTS	SEVERE CONSTRAINTS
(A)	Limited employment opportunities for graduates in this specialty.			
(B)	Insufficient applications from interested students; difficult to recruit additional students.			
(C)	Limited operating funds (insufficient funds for additional faculty, other staff, equipment, etc.).			
(D)	Unable to recruit qualified faculty to fill vacancies when funds are available.			
(E)	Insufficient or unsuitable physical facilities for didactic instruction.			
(F)	Inadequate or insufficient clinical training facilities.			
(G)	Insufficient financial aid for students.			
(H)	Limited by accrediting association.			
(I)	Other. (Specify) _____			

SECTION E—GUIDANCE INFORMATION

33. Please check the entrance requirements for your institution or your program. (Do NOT include tests advised or required for guidance or placement purposes.)

	ENTRANCE REQUIREMENT/S	REQUIRED BY INSTITUTION (A)	REQUIRED BY PROGRAM (B)
(01)	Scholastic Aptitude Test (CEEB Series)		
(02)	Writing Sample (CEEB Series)		
(03)	Achievement Tests (CEEB Series)		
(04)	American College Testing Program Examination (ACT)		
(05)	Graduate Record Examination—Aptitude Test		
(06)	Graduate Record Examination—Advanced Test (Please Specify) _____		
(07)	Muler Analogy		
(08)	Standardized National Examination—Not Elsewhere Classified (Please Specify) _____		
(09)	Institution-Designed Examination		
(10)	Personal interview		
(11)	Grade Point Average on a 4 Point System (Please Specify) _____		
(12)	Biographical Material		
(13)	Audition		
(14)	Portfolio		
(15)	Preference/Interest Tests		
(16)	Other (Please Specify) _____		

APPENDIX G—SURVEY INSTRUMENTS

(Continued)

34 Does your institution accept credits earned by students in a two-year college?

☐ YES

☐ NO

COMMENT? _____

35 How many completed applications were received for this program's MOST RECENT entering class?

NUMBER OF APPLICANTS

36 For your program, do you maintain a waiting list of qualified students who were not admitted at their first application?

☐ YES

☐ NO

If YES, how long is a student's name maintained on the list?

MONTHS _____

37 A Excluding room and board, what is the total cost (tuition, similar fees, books, uniforms, and other charges) to students to complete the entire program? (From time of matriculation for GRADUATE programs, or time of entry shown in Item 13, Page 6, of this form, for UNDERGRADUATE programs.) Enter 0 if no charge is made to students. If you do not accept one or more of the following types of non-resident students please write No on the appropriate Total Cost line.

RESIDENT
(County/State)

NON-RESIDENT
(Out-of-County) (Out-of-State)

TOTAL COST _____

B Indicate below which of the above expenses are included in the total costs

Tuition or Similar Fees

Uniforms

Books

Instruments

Lab Fees

Other Supplementary Costs

C Of the amount(s) listed in Question 37, A, how much of that figure comprises the cost of tuition or similar fees?

RESIDENT
(County/State)

NON-RESIDENT
(Out-of-County) (Out-of-State)

COST OF TUITION
OR SIMILAR FEE
ONLY

APPENDIX G—SURVEY INSTRUMENTS

Approval Expires December 31, 1976

1975 Inventory of Health Occupations Education Programs in Two-Year and Four-Year Colleges and Universities

MAJOR CATEGORY INCLUSIONS

01 Administration, Planning, and Office	42 Nuclear Medicine
03 Biomedical Engineering	43 Nursing-Related Services
05 Clinical Laboratory Services	49 Pharmacy Services
07 Dental Services	58 Physician Extender
10 Dietetic and Nutritional Services	61 Podiatric Services
13 Emergency Services	67 Radiological Services
16 Environmental Services	70 Rehabilitation-Occupational
19 Health Education	73 Rehabilitation-Physical
95 Health Professionals Not Elsewhere Classified	76 Rehabilitation-Not Elsewhere Classified
22 Health-Related Teacher Preparation	80 Respiratory Therapy Services
25 Information and Communication	85 Social Services and Counseling
34 Medical Instrumentation and Machine Operation	88 Speech and Hearing Services
37 Medical Record	91 Veterinary Services
40 Mental Health	46 Vision Care

GLOSSARY OF OCCUPATIONAL TITLES

01 ADMINISTRATION, PLANNING, AND OFFICE
personnel function at various levels to maintain and operate clinical offices and institutions and to plan for improved health care and delivery.

0105 Health Economist: Applies specialized knowledge of the laws of supply and demand, marketing, polling, econometrics, and motivation research to permit the efficient delivery of health services.

0110 Health Care Administrator: Occupies top-level positions in a variety of health care settings: hospitals, official health agencies, long-term care facilities, social service agencies, voluntary and tax paying health agencies, and public health agencies. Policy development, activity coordination, procedural development and planning are the primary functions of the position.

0115 Health Care Assistant Administrator: Occupies middle management positions in a variety of clinical and health care settings: hospitals, public

and private health agencies, long-term care facilities, social service agencies.

0120 Health Planner: Works in state and areawide health planning agencies and related programs implementing community goals including planning and evaluating developmental policies.

0125 Health Systems Analyst: Develops and applies the principles of industrial and systems engineering, operations research, and management to the design, evaluation, and implementation of improved health care.

0136 Long-Term Care Administrator: Directs and coordinates all operations and activities of extended care facilities.

0140 Medical/Dental Secretary: Assists physicians and/or dentists through the use of medical shorthand, typing, filing, accounting, appointment scheduling, receptionist duties, and office management.

0145 Medical Office Assistant: Assumes responsibility for routine administrative, clerical, and record-keeping procedures in a physician's office, assists the physician in medical examinations and treatments, and cares for medical equipment and supplies.

0150 Rehabilitation Administrator: Manages a rehabilitation agency's business aspects: personnel, budget control, public relations work, training, programs planning, and services coordination.

0155 Unit Clerk: Handles routine clerical and reception work in a floor nursing unit: receiving patients and visitors, scheduling appointments, monitoring the location of all ward staff, and where hospital policy permits, transcribing doctors' orders, ordering supplies, and up-dating information on patients' charts. (Ward Clerk)

0156 Unit Manager: Supervises and coordinates administrative management functions for one or more patient care units: oversees unit clerks, initiates clerical procedures and serves as a liaison for the unit with other hospital departments. (Ward Service Manager, Ward Supervisor)

03 BIOMEDICAL ENGINEERING personnel combine basic engineering and biomedical science in order to design, assemble, and adapt medical devices, instruments, and processes to improve the quality and cost in the delivery of medical health care.

0305 Biomedical Engineer: Utilizes engineering ideas and techniques in the development of new instruments, equipment, processes, and systems for the medical care of patients and the improvement of health systems.

0310 Biomedical Engineering Technician: Assembles, repairs, and adapts medical equipment to assist biomedical engineers, physicians, and scientists in the development and maintenance of medical equipment and systems for the delivery of medical and health care. (Biomedical Equipment Technician)

05 CLINICAL LABORATORY SERVICES personnel work in a clinical laboratory setting, collecting, mounting, processing, classifying and analyzing laboratory specimens.

0505 Specialist in Blood Bank Technology: Medical technologist, working under the direction of a pathologist, physician, or laboratory director, prepared to collect, classify, store, and process blood, including preparation of components from whole blood, detection and identification of antibodies in patient and donor bloods, and selection and delivery of suitable blood for transfusion.

0510 Chemistry Technologist: Works under the supervision of a pathologist, physician, or qualified scientist in performing qualitative and quantitative chemical analyses of body fluids and exudates, utilizing quantitative equipment and a wide range of laboratory instruments, to provide information for diagnosing and treating diseases.

0515 Cyto technologist: Works under the supervision of a pathologist, physician or medical technologist, in handling, staining, mounting, and evaluating cells from the human body to determine cellular variations and abnormalities such as cancer and other physiologic changes.

0519 Hematologist: Directs and supervises analysis and testing of blood specimens, and interprets test results toward disease treatment. Directs operations of hospital blood bank, which involves supervision of hematology technologists, and blood bank technologists, and develops diagnostic reports for approval by the pathologist.

0520 Hematology Technologist: Works under supervision of a hematologist, medical technologist, or laboratory director, in performing quantitative, qualitative, and coagulation tests on cellular and plasma components of blood for use in the diagnosis and treatment of disease.

0525 Histologic Technician: Works under supervision of a pathologist or other qualified physician in sectioning, staining, and mounting human or animal tissues and fluid for microscopic study.

0530 Medical Laboratory Assistant: Works under the direct supervision of a medical technologist, pathologist, physician, or qualified scientist, in performing routine laboratory procedures requiring basic technical skills and minimal independent judgment, in chemistry, hematology, and microbiology. (Certified Laboratory Assistant)

0535 Medical Laboratory Scientist: Performs clinical analysis procedures and research in the medical/clinical laboratories utilizing disciplines such as chemistry, biochemistry, bacteriology, and microbiology.

0540 Medical Laboratory Technician: Works under the supervision of a medical technologist, pathologist, or physician, in performing more complex or specialized bacteriological, biological, and chemical tests, requiring limited independent judgement or correlation competency, to provide data for use in the diagnosis and evaluation of effective treatment of disease.

0545 Medical Technologist: Performs a wide range of complex and specialized procedures in all general

APPENDIX G—SURVEY INSTRUMENTS

(Continued)

areas of the clinical laboratory, making independent and correlation judgement, and working in conjunction with pathologists, physicians, and qualified scientists. May supervise and/or teach laboratory personnel.

0550 Microbiology Technologist: Works with a minimum of supervision by a pathologist, physician, or laboratory director, in performing many bacteriological, viral, parasitological, immunologic, and serologic procedures in a clinical laboratory setting.

0555 Public Health Laboratory Scientist: Performs clinical laboratory procedures and research with specific public health focus or within a public health setting.

0560 Prosector: Performs complete gross autopsies under the supervision of a physician, cuts blocks for slides, applies special stains for bacteria, and freezes sections for rapid diagnosis.

07 DENTAL SERVICES personnel render varieties of services to the dentist; they do general office work, laboratory work, and they assist the dentist at the chairside.

0720 Dental Assistant: Assists dentist at the chairside in dental operator, performs reception and clerical functions, and carries out dental radiography and selected dental laboratory work.

0725 Dental Hygienist: Are professional oral health clinicians and educators who help the public develop and maintain optimum oral health. As members of the dental health team, dental hygienists perform preventive, restorative, and therapeutic services under the supervision of a dentist. Dental hygienists are the only licensed dental auxiliary and specific responsibilities vary, depending on the state dental practice act.

0730 Dental Technician: Prepared to construct complete and partial dentures, make orthodontic appliances, fix bridgework, crowns, and other dental restorations and appliances, as authorized by dentists. (Dental Laboratory Technician)

10 DIETETIC AND NUTRITIONAL SERVICES personnel translate nutritional needs into the selection, purchasing, preparation, and service of appropriate foods; along with maintenance of equipment, sanitation and cost control. They provide nutritional education to individuals and groups, and serve as nutritional consultants to health facilities and communities.

1005 Dietary Aide: Performs non-technical food preparation routines, as directed by a supervisor,

serves meals to patients, and assists with food-related jobs in health care facilities. (Dietetic Aide)

1010 Dietetic Technician: Functions as middle management and service personnel in the nutritional care of individuals in health care facilities, assisting with the planning, implementation, and evaluation of food programs, working with both the food service supervisor and the dietitian and, where hospital policy permits, may train and supervise dietary aides. (Food Service Manager, Food Service Assistant, Food Service Technician)

1015 Dietitian: Applies the principles of nutrition and management in administering institutional food service programs, plans special diets at physician's requests, and instructs individuals and groups in the application of nutrition principles to the selection of food.

1020 Dietitian/Nutritionist: Trained in dietetics and/or nutrition.

1025 Dietetic Assistant: Writes food menus following dietetic specifications, coordinates food service to patients, orders supplies, maintains sanitation, and oversees the work of food service employees in health care facilities. (Food Service Supervisor)

1030 Nutritionist: Adapts and applies food and nutrient information to the solution of food problems, the control of disease, and the promotion of health, performs nutrition research, instructs groups and individuals about nutritional requirements, and helps people develop meal patterns to meet their nutritional needs.

13 EMERGENCY SERVICES personnel administer temporary medical help by responding to, evaluating, and assisting in emergency conditions.

1305 Ambulance Attendant: Provides first aid and assistance in the transportation of critically ill and injured persons.

1310 Emergency and/or Disaster Specialist: Develops and implements hospital-wide procedures for dealing with in-house and community emergencies and disasters.

1315 Emergency Medical Technician: Responds to medical emergency calls, evaluates the nature of the emergency, and carries out specified diagnostic and emergency treatment procedures under standing orders or the specific directions of a physician.

16 ENVIRONMENTAL SERVICES personnel inspect, evaluate, and gather data for their use in the design, operation, and control of systems for prevention and elimination of environmental hazards.

1605 Environmental Engineer: Applies engineering principles to the control, elimination, and prevention of environmental hazards such as air pollution, water pollution, solids pollution, and noise pollution. (Sanitary Engineer)

1610 Environmental Engineering Assistant: Works with and assists the environmental engineer in his tasks of designing and controlling systems to eliminate and control environmental health hazards.

1615 Environmental Health Technician: Assists in the survey of environmental hazards and performs technical duties under professional supervision in many areas of environmental health such as pollution control, radiation protection, and sanitation protection. (Sanitarian Technician)

1620 Environmentalist: Plans, develops, and implements standards and systems to improve the quality of air, water, food, shelter, and other environmental factors, manages comprehensive environmental health programs, and promotes public awareness of the need to prevent and eliminate environmental health hazards. (Sanitarian)

1623 Health Care Facilities Housekeeper: Develops, implements, and supervises techniques used to control, eliminate and prevent cross infection or other environmental hazards in health care facilities. Establishes standards and work procedures for the housekeeping staff in accordance with the established policies of the facility. Maintains budgets, inventories of supplies and equipment, and personnel hiring practices.

1625 Industrial Hygienist: Conducts programs in industry to measure, and help control, eliminate, and prevent occupational hazards and diseases.

1630 Sanitarian Aide: Collects and measures environmental sanitation conditions and implements corrective action on health hazards for which specific guidelines exist.

19 HEALTH EDUCATION personnel acquaint groups and individuals with the standards of optimum health and the principles of achieving and maintaining optimum health.

1905 Community/Public Health Educator: Alerts community groups and individuals to changing patterns of health care, to health hazards, and to activities which will promote community health and safety.

1910 School Health Educator: Teaches elementary, secondary, and college students principles of personal health sciences, total fitness, family living,

consumer and environmental health, and community health trends and resources.

1915 Health Educator: Influences public attitudes toward achieving and maintaining high standards of health care through teaching and utilizing school and community resources, as well as providing consultation to school administrators, health councils, and community groups.

95 HEALTH PROFESSIONALS NOT ELSEWHERE CLASSIFIED

9505 Biostatistician: Uses statistical theory, techniques, and methods to determine useful measurements or meaningful relationships of information relating to health or disease.

9510 Epidemiologist: Concerned with determining the distribution and causal factors of health problems, encompassing areas such as acute and chronic illness, communicable diseases, behavioral disorders, alcoholism, and drug abuse.

9515 Health Physicist: Directs research, training, and monitoring programs to protect hospital patients and laboratory personnel from radiation hazards, inspects and evaluates standards and decontamination procedures and develops new methods to safeguard man and his environment against unnecessary radiation exposure.

9520 Health Physics Technician: Monitors radiation levels, gives instructions in radiation safety, labels radioactive materials, and assists the health physicist in conducting experimental studies in radiation.

9525 Population and Family Planning Specialist: Uses demography, demographic techniques, and reproductive physiology to plan, conduct, and evaluate family planning programs.

9530 Public Health Practitioner—Not Elsewhere Classified: Professionally trained to work in a public health capacity not specifically defined elsewhere in this GLOSSARY.

9535 Toxicologist: Concerned with the nature and extent of the injurious response to the ingestion of chemical compounds, and the determination of safe levels of exposure or ingestion in man and other species.

9536 Vocational Evaluator: Assesses needs of those with employment handicaps as a result of physical, mental, or emotional disability. Evaluates work behavior and vocational potential by collecting and/or administering and interpreting relevant biographical data, task data, work samples, psychometrics and

APPENDIX G—SURVEY INSTRUMENTS

(Continued)

situational assessments, and interprets findings to the rehabilitation counselor.

22 HEALTH-RELATED TEACHER PREPARATION combines teaching skills and health expertise in preparing: (1) Instructors of individuals who are physically disabled, emotionally disturbed, or mentally retarded; and (2) Allied Health Professionals who desire to teach within their specialty area.

2205 Allied Health Educator: Teaches the specialty in which he was trained to students being prepared in the discipline. May also supervise other individuals in his occupation.

2210 Teacher of the Deaf: Adapts methods and curricula in the teaching of special skills, elementary, and secondary school subjects to deaf and hard-of-hearing pupils.

2215 Teacher of the Emotionally Disturbed: Conducts educational programs for emotionally disturbed pupils.

2220 Teacher of the Learning Disabled: Develops and implements educational programs to assist children in overcoming or compensating for learning disabilities such as aphasia, dyslexia, or other related problems.

2225 Teacher of the Mentally Retarded: Develops and implements educational programs for trainable or educable mentally retarded persons according to the pupil's level of learning.

2230 Teacher of the Physically Handicapped: Develops and implements academic and recreational programs for handicapped persons after evaluating the physical limitations, abilities, and needs of the individuals.

2232 Teacher of Special Education—Not Elsewhere Classified: Develops and implements educational programs suited to the needs of students with physical disabilities, mental retardation, or emotional disturbances.

2235 Teacher of the Visually Handicapped: Teaches academic and practical skills to the blind or visually handicapped through the use of braille and other specialized methods.

25 INFORMATION AND COMMUNICATION personnel apply a communications orientation to the development, presentation, organization, and recording of medical facts and material for the benefit of medical personnel and the general public.

2505 Health Writer: Specializes in the writing of health or medical materials.

2510 Medical Communications Specialist: Knows the properties and capabilities of communications media and applies this knowledge to the design and improvement of communication processes in the health field.

2515 Medical Computer Specialist: Combines a knowledge of computer science and health science to provide systems and programming support in the medical field.

2520 Medical Illustrator: Demonstrates medical facts by the creation of illustrations, models and teaching films; serves as a consultant, advisor, and administrator in the field of medical illustration.

2525 Medical Librarian: Combines a degree in library science with specialized knowledge of medical librarianship and bibliography, to acquire, organize, catalog, retrieve, and disseminate medical information.

2530 Medical Library Assistant: Combines training in library technology and health subjects to assist medical librarians in the process of acquiring, organizing, cataloging, retrieving, and disseminating medical information.

2535 Medical Photographer: Visually presents medical facts by means of lantern slides, motion pictures, photographs of patients, reproduction of x-rays, and/or photomicrographs.

34 MEDICAL INSTRUMENTATION AND MACHINE OPERATION personnel maintain and/or operate equipment and instruments which supplement and support body functions or which provide diagnostic or therapeutic services.

3405 Cardiopulmonary Technician: Performs a wide range of tests related to the functions and therapeutic care of the heart-lung system, operates and maintains a heart-lung machine for extra-corporeal circulation, assists in cardiac catheterization and cardiac resuscitation, and assists in the post-operative monitoring, care, and treatment of heart-lung patients.

3412 Circulation Technologist: Operates and designs heart-lung machines, dialysis machines, artificial organs, and similar circulation devices and monitoring instruments to provide circulatory support to patients.

3415 Dialysis Technician: Operates and maintains an artificial kidney machine following approved methods and techniques to provide dialysis treatment for patients with kidney disorders or failures.

3420 Electrocardiographic Technician: Operates and maintains electrocardiograph machines, records electromotive variation in heart muscle action, and provides data for diagnosis and treatment of heart ailments by physicians.

3425 Electroencephalographic/Electrocardiographic Technician: Operates and maintains both electroencephalographic and electrocardiographic machines.

3430 Electroencephalographic Technologist/Technician: Operates and maintains electroencephalographic machines, recording brain waves on a graph to be used by physicians in the diagnosis of brain disorders.

3435 Electromyographic Technician: Assists physicians in recording and analyzing bioelectric potentials which originate in muscle tissue, including the operation of various electronic devices, maintenance of electronic equipment, assisting with patient care, and record-keeping.

37 MEDICAL RECORD personnel plan, organize and manage patient information systems and statistical reports for medical and administrative staff use and health care research.

3705 Medical Record Administrator: Plans, designs, develops, and manages systems of patient information, administrative and clinical statistical data, and patient medical records, in all types of health care institutions.

3710 Medical Record Technician: Serves as the skilled assistant to the medical record administrator, carrying out the technical work of coding, analyzing, and preserving patients' medical records and compiling reports, disease indices, and statistics in health care institutions.

3715 Medical Transcriptionist: Skilled in typing, medical spelling, medical terminology, and the proper format of medical records and reports; prepared to transcribe medical dictation using mechanical dictating equipment.

40 MENTAL HEALTH personnel assist the health professionals in the prevention and treatment of mental disorders through recreational, occupational, and educational programs.

4002 Human Services Technologist/Technician: Employs skills as a generalist, based upon knowledge of human behavior and social problems in settings providing mental health and social rehabilitation

services; employs a whole person, noncustodial approach to treating the symptomatic and causative elements that affect the individual's ability to respond to his social environment.

4005 Mental Health Associate/Technician/Assistant: Works under the supervision of professional personnel in supplementing physical care for persons with emotional problems through recreational, occupational, and readjustment activities, including participation in group therapy with clients and families; refers patients to community agencies, and visits patients after their release from an institution.

4010 Mental Health Technologist: Works with other mental health professionals in diagnosing psychiatric disorders, counseling and planning treatment for the emotionally disturbed or mentally retarded.

4015 Mental Retardation Aide: Works under the supervision of a professional staff in attending to the physical needs and well-being of mentally retarded patients and in assisting with teaching and recreation processes.

4020 Psychiatric Technician: Works under the supervision of professional and/or technical personnel in caring for mentally ill patients in a psychiatric medical care facility; assists in carrying out the prescribed treatment plan for the patient; maintains consistent attitudes in communicating with the patient in keeping with the treatment plan, and carries out assigned individual and group activities with patients. (Psychiatric Aide)

42 NUCLEAR MEDICINE personnel prepare or use radioactive nuclides in laboratory procedures, scanning-imaging, and function studies for diagnostic, therapeutic, and research purposes.

4205 Nuclear Medicine Technologist/Technician: Performs a wide variety of diagnostic tests in human beings and/or on body fluids utilizing radioactivity and/or stable nuclides. Also applies radioactivity in the course of treatment. Makes independent judgments under the general guidance of a nuclear medicine physician.

43 NURSING-RELATED SERVICES personnel assist the physician in bedside patients care, and provide specialty services as required by institutional and community needs.

4342 Nurse Aide/Orderly: Performs tasks delegated or assigned by the professional nursing staff,

APPENDIX G—SURVEY INSTRUMENTS

(Continued)

including assisting in providing direct patient care of a routine nature, making beds, delivering messages, counting linens, and escorting patients to other departments in the hospital. May also include, where hospital policy permits, the taking of vital signs, and in the case of orderlies, includes performing heavier work in the nursing unit and maintaining equipment and may include setting up of traction and performing male catheterization. (Nurse Assistant, Nurse Aide, Orderly, Hospital Attendant, Nurse Attendant)

4345 Nurse Anesthetist: Registered nurse prepared to work under an anesthesiologist or physician in administering anesthetic agents to patients before and after surgical and obstetrical operations and other medical procedures.

4350 Nurse-Midwife: Assumes responsibility for the care of apparently normal obstetrical patients during pregnancy, labor, delivery and postnatal period.

4355 Nurse Practitioner: Registered nurse prepared to carry out functions previously performed by the general practitioner or physician specialist; collaborates with other health professionals in planning and instituting programs for the delivery of primary, acute, or chronic care; provides direct care to clients by making independent decisions about nursing care needs.

4360 Obstetrical Technician: Assists in the care of mothers in labor and delivery rooms before, during and after delivery under supervision of professional personnel, including hygienic procedures, routine laboratory work, and sterilization of equipment and supplies.

4365 Operating Room Technician: Works as general technical assistant on the surgical team by arranging supplies and instruments in the operating room, maintaining antiseptic conditions, preparing patients for surgery and assisting the surgeon during the operation.

4371 Geriatric Care Worker: Administers to the needs of aged patients, bringing to the task an understanding of the problems of institutionalization, economic needs, and attitudes toward the elderly as these concepts relate to this specific population.

49 PHARMACY SERVICES personnel assist the pharmacist in selected activities in pharmacy departments to provide pharmaceutical services to patients, nurses, and physicians.

4919 Medication Pharmacy Technician: Works under the supervision of a pharmacist; administers drugs to patients except for intravenous medications.

4920 Pharmacy Technician: Assists the pharmacist in selected activities including medication profile reviews for drug incompatibilities, typing prescription labels, prescription packaging, handling of purchase records, inventory control, and may, where hospital policy and state law permit, administer drugs to patients under the supervision of a registered pharmacist.

58 PHYSICIAN EXTENDER personnel render direct and specific assistance to the physician specialist and general practitioner in clinical and research endeavors, taking medical histories, performing detailed physical examinations, and conducting visual, auditory, developmental, and laboratory tests.

5805 Physician Assistant-Primary Care: Performs physician-delegated functions in the areas of general practice, including family medicine, internal medicine, pediatrics, obstetrics, and emergency medicine.

5810 Physician Assistant-Specialty: Performs functions delegated by a clinical specialist in specific areas of patient care: urology, surgery, pathology, orthopedics, etc.

61 PODIATRIC SERVICES personnel work under the direct supervision of the podiatrist, performing supplementary duties for the foot specialist.

6120 Podiatric Assistant: Supports the podiatrist in his service to patients by preparing patients for treatment, sterilizing the instruments, performing general office duties, and assisting the podiatrist in preparing dressings, administering treatments, and developing x-rays.

67 RADIOLOGICAL SERVICES personnel use ionizing radiation for diagnostic, therapeutic, and research purposes.

6705 Medical Radiation Dosimetrist: Calculates radiation dosage in the treatment of malignant disease and plans the direction of radiation to its target in the safest way.

6710 Radiation Therapy Technologist/Technician: Administers x-rays and electron beam equipment in order to treat disease in patients and assists in preparing and handling radioactive materials for therapy purposes.

6715 Radiologic Technologist/Technician: Maintains and safely uses equipment and supplies necessary to demonstrate portions of the human body on

x-ray film or fluoroscopic screen for diagnostic purposes. May supervise and/or teach radiologic personnel. (X-Ray Technician)

6720 *Ultrasound Technical Specialist*: Uses acoustic energy for diagnosis, research, and therapy, operates ultrasound equipment to obtain diagnostic results, evaluates results for quality of technique, and in emergency situations, makes interim reports to medical staff.

70 REHABILITATION—OCCUPATIONAL personnel use work-related skills in treating or training patients who are physically or mentally ill, in preventing disability, in evaluating behavior, and in restoring disabled persons to health, social, or economic independence.

7005 *Manual Arts Therapist*: Uses industrial arts, workshops, and agricultural activities to assist in the rehabilitation of patients.

7010 *Occupational Therapist*: Evaluates the self care, work, and play/leisure time task performance skills of well and disabled clients of all age ranges; plans and implements programs, social and interpersonal activities designed to restore, develop and/or maintain the client's ability to accomplish satisfactorily those daily living tasks required of his specific age and necessary to his particular occupational role adjustment.

7015 *Occupational Therapy Assistant*: Works under the supervision of an occupational therapist in evaluating clients, planning and implementing programs designed to restore or develop a client's self care, work, and play/leisure time task performance skills. Although the assistant requires supervision in conducting a remedial program, he can function independently when conducting a maintenance program.

7020 *Rehabilitation Homemaking Specialist*: Trains disabled homemakers to perform normal household activities in spite of their disability.

73 REHABILITATION—PHYSICAL personnel use physical agents, assistive devices and therapeutic exercise for the prevention of disease and disability and toward restoration of function to disabled persons.

7305 *Corrective Therapist/Adapted Physical Education Director*: Provides medically prescribed programs of therapeutic exercise to physically and mentally ill patients to prevent muscular deconditioning resulting from inactivity and to attain re-socialization and specific psychiatric objectives.

7310 *Exercise Physiologist*: Works with clinicians in hospitals with rehabilitation programs to provide exercise stress testing and cardiovascular rehabilitation for patients.

7312 *Orthopedic Technician*: Sets up traction rooms, applies all types of traction, makes casts, applies splints, and may train patients to operate a circle-o-bed.

7315 *Orthotic/Prosthetic Assistant*: Assists the orthotist/prosthetist in caring for patients by making casts, measurements, and model specifications and fitting supportive appliances and/or artificial limbs.

7320 *Orthotic/Prosthetic Technician*: Fabricates and repairs supportive appliances and/or artificial limbs under the guidance of the orthotist/prosthetist and his assistant.

7325 *Orthotist/Prosthetist*: Writes specifications for, makes, fits, and repairs braces and appliances and/or artificial limbs following the prescription of physicians.

7330 *Physical Therapist*: Uses physical agents, biomechanical, and neurophysiological principles, and assistive devices in relieving pain, restoring maximum function, and preventing disability following disease, injury or loss of bodily part.

7335 *Physical Therapy Assistant*: Assists the physical therapist by assembling equipment, carrying out specified treatment programs, and helping with complex treatment procedures. Other duties include responsibility for the personal care of patients, safety precautions, routine clerical and maintenance work.

76 REHABILITATION NOT ELSEWHERE CLASSIFIED personnel apply the principles of rehabilitation to diversified areas of therapeutic technique, such as education, fine arts, and recreation.

7605 *Art Therapist*: Applies the principles and techniques of art to the rehabilitation of physically and mentally ill patients.

7610 *Dance Therapist*: Applies the principles and techniques of dance to the rehabilitation of physically and mentally ill patients.

7615 *Educational Therapist*: Instructs patients in academic and vocational subjects to further their medical recovery and prevent mental deconditioning.

7620 *Music Therapist*: Uses individual and group musical activities with physically and mentally ill patients to accomplish therapeutic aims, to create an environment conducive to treatment, or to influence behavior.

APPENDIX G—SURVEY INSTRUMENTS

(Continued)

7625 Recreational Therapist: Plans, organizes, and directs medically approved recreation programs such as sports, trips, dramatics, arts and crafts, either to help clients in recovery from illness or in coping with temporary or permanent disability.

7630 Recreational Therapy Technician: Assists the recreational therapist in conducting medically approved recreation programs such as sports, trips, dramatics, arts and crafts.

7635 Rehabilitation Therapy Assistant: Prepared by a general orientation to various rehabilitation specialties to assist the professional therapist in carrying out rehabilitation programs.

80 RESPIRATORY THERAPY SERVICES personnel, under medical direction, treat, manage, control, and perform diagnostic evaluations in the care of patients with deficiencies and abnormalities in the cardio-pulmonary system.

8040 Respiratory Therapist: Administers respiratory care under the direction of a physician, evaluating the patient's progress, and making recommendations for respiratory therapy. His proficiencies include ventilatory therapy, cardio-respiratory rehabilitation, microenvironmental control, and diagnostic testing of the respiratory system. (Inhalation Therapist)

8045 Respiratory Therapy Technician: Routinely treats patients requiring non-critical respiratory care, and recognizes and responds to a limited number of specified patient respiratory emergencies.

85 SOCIAL SERVICES AND COUNSELING personnel use individual or group counseling techniques and/or provide services offered by social agencies to assist individuals in personal and/or social adjustment.

8505 Alcohol/Drug Abuse Specialist: Advises and assists people in their efforts to overcome personal, family, and social problems that are manifested in alcoholism and drug addiction.

8510 Clinical Pastoral Counselor: Combines a knowledge of health and religion in counseling the confined ill and disabled.

8515 Community Health Worker: Assists people in the community with medical, social, or mental health problems, in finding and utilizing sources of available help.

8520 Genetic Assistant: Obtains complete genetic case histories from families of patients with inherited diseases and birth defects to be used in genetic counseling.

8525 Genetic Counselor: Counsels clients as to the origin, transmission and development of hereditary characteristics and their relations to birth abnormalities.

8530 Homemaker/Home Health Aide: Assists with meals, shopping, household chores, bathing, and the other daily living needs, both physical and emotional, of elderly, ill, or disabled persons, working under professional supervision required by the situation.

8535 Medical Social Worker: Prepared to identify and understand the social and emotional factors underlying patients' illness and to communicate these factors to the health team; to assist patients and their families in understanding and accepting the treatment necessary to maximum medical benefits and their adjustment to permanent and temporary effects of illness; to utilize resources, such as family and community agencies, in assisting patients to recovery.

8536 Medical/Psychiatric Social Worker: Provides the link between organized social services and those who need the services in order to solve social or medical problems. Through casework, groupwork, and community organization, assumes responsibility for aiding families and individuals with problems resulting from severe physical, mental, or emotional disabilities.

8540 Psychiatric Social Worker: Serves as a liaison between the psychiatrist, patient, and patient's family, to provide counseling and emotional support to the patient, and to contribute to the evaluation and diagnosis of mental disorders as a member of the psychiatric team.

8542 Rehabilitation Counselor: Helps disabled individuals become aware of and secure rehabilitation services designed to fit the disabled person for gainful employment, assists in job placement and checks on job satisfaction after employment.

8543 Rehabilitation Counselor Aide: Aids the rehabilitation counselor in developing and implementing a rehabilitation plan for an individual; under supervision, he may conduct client interviews, locate and file data about employment opportunities, match clients with jobs available, and locate additional individuals in need of counseling or rehabilitation services.

8545 School Health Aide: Assists the physician or nurse with physical examinations and programs to improve or maintain students' health.

8546 Child Care Worker: Under supervision, implements activity and training programs which provide a preventive and therapeutic environment for mentally ill and emotionally disturbed children and adolescents. Trains children in self-help skills through intensive group sessions involving structured daily activities and reinforcement of other therapeutic experiences; records, evaluates, and reports progress of patients.

88 SPEECH AND HEARING SERVICES personnel evaluate, record, habilitate, and research speech and hearing disorders in children and adults.

8805 Audiologist: Evaluates hearing function and performs research related to hearing; plans, directs, and conducts habilitative programs designed to improve the communication efficiency of individuals with impaired hearing.

8806 Audiologist (Pre-Master's): Qualified for entry into graduate-level training as an Audiologist.

8810 Speech/Hearing Therapy Aide: Assists in testing, evaluating, and treating the problems of people with speech and hearing difficulties.

8815 Speech Pathologist: Evaluates, habilitates, and performs research related to speech and language problems; plans, directs, and conducts remedial programs designed to restore or improve communication efficiency of individuals with language and speech impairments, whether arising from physiological neurological disturbances, defective articulation, or foreign dialect in children or adults.

8816 Speech Pathologist (Pre-Master's): In certain areas, treats speech and language disorders in children and adults, and is prepared for graduate work in Speech Pathology.

8820 Speech Pathologist/Audiologist: Evaluates and habilitates hearing, speech, and language disorders, such as neurological disturbances, defective articulation, or foreign dialect in children or adults.

8821 Speech Pathologist/Audiologist (Pre-Master's): In certain areas, evaluates and treats speech, and language disorders in children and adults, and is prepared for graduate work in Speech Pathology or Audiology.

91 VETERINARY SERVICES personnel work with the care, use, production, and husbandry of animals in a medical setting.

9120 Laboratory Animal Specialist: Manages the husbandry, production, and use of laboratory animals including responsibility for the sanitation, caging, safety, and nutrition of animals and the business management of the animal laboratory.

9125 Laboratory Animal Worker: Cares for the health of laboratory animals used in research by feeding the animals, cleaning cages, preparing the animals for experiments, administering medications, and keeping records on laboratory procedures.

46 VISION CARE personnel work with or carry out the prescriptions of the ophthalmologist and optometrist. Their duties include ophthalmic examinations, treatment, and correction of ophthalmic disorders by physical or mechanical measures.

4620 Ophthalmic Assistant/Technician: Assists the ophthalmologist in eye examinations and in the treatment of eye diseases and disorders.

4625 Ophthalmic Dispenser: Adapts and fits corrective eyewear as prescribed by the ophthalmologist or optometrist.

4630 Ophthalmic Laboratory Technician: Operates machines to grind lenses and fabricate eyewear to prescription.

4631 Ophthalmic Optician: Grinds lenses and fabricates eyewear, as well as adapts and fits corrective eyewear according to prescription by the ophthalmologist or optometrist.

4635 Optometric Assistant/Technician: Assists an optometrist in diversified ways, including general office duties, vision testing patients, administering eye exercises, preparing and fitting corrective lenses, and styling eyewear.

4640 Orthoptist: Works under supervision of an ophthalmologist in testing for certain eye muscle imbalances and teaching the patient exercises to correct eye-coordination defects.

INSTRUCTIONS FOR QUESTIONNAIRE III

RETURN OF QUESTIONNAIRE: Please complete this questionnaire and return it to the Society no later than three weeks upon receipt.

GENERAL INSTRUCTIONS: A separate questionnaire must be completed for each program. PROGRAMS OFFERED AT DIFFERENT AWARD LEVELS AND HAVING DIFFERENT PREREQUISITES ARE CONSIDERED TO BE SEPARATE PROGRAMS AND REQUIRE A SEPARATE FORM. Questions about the survey form should be directed to Ms. Andrea Fritush at Society headquarters, One Dupont Circle, Suite 300, Washington, D.C. 20036, Area Code 202, Phone 293-1652.

DEFINITIONS AND REPORTING CRITERIA:

PROGRAM

A health occupations education program, for purposes of the Inventory, includes formal classroom instruction, laboratory instruction, clinical training, and/or supervised field experience, leading to competency in a specific health occupation or profession, and resulting in a degree, certificate, or diploma.

The following requirements must be met for the inclusion of a planned program in the Inventory:

- The planned program will become active with an established matriculation date between October 15, 1975 and October 17, 1976.
- A diploma, certificate, or degree will be granted by the reporting institution after the professional and didactic components of the program have been completed.
- The planned program will be at least 36 clock hours in duration.

AWARD LEVEL

Degree, diploma, and certificate programs should be reported in this survey and are defined as follows:

- **DEGREE PROGRAM:** Any program which results in the awarding of an associate, bachelor's, master's, or doctoral degree.
- **DIPLOMA PROGRAM:** Any program which results in a diploma granted for at least 3 but less than 4 years of training after 12th grade.
- **CERTIFICATE PROGRAM:** All of the following certificates should be reported.
 - **OCCUPATIONAL/VOCATIONAL CERTIFICATE** Certificate awarded for training of at least 36 clock hours duration but no more than 36 months duration after matriculation in the program.
 - **COLLEGIATE CERTIFICATE** Certificate awarded for training (other than continuing education) of more than 36 months beyond the 12th grade, or post-baccalaureate training for which NO additional degree is granted.
 - **CERTIFICATE FOR ADVANCED STANDING** Certificate awarded for training which is beyond the master's, but NOT at the doctoral degree level.
 - **CONTINUING EDUCATION CERTIFICATE** Certificate awarded for training to maintain a health worker's proficiency, which signifies evaluation of the worker's participation in the program.

INCLUSIONS

The enclosed GLOSSARY OF OCCUPATIONAL TITLES represents examples of health occupations whose education programs will be included in the Inventory. This list is not intended to be all inclusive. Programs for occupations not specifically listed should be reported if you consider them to be within the framework of the GLOSSARY.

EXCLUSIONS

Do not report the following program types.

- Programs that are hospital based for which your institution serves as an affiliate unless the academic institution grants the award and/or the hospital is a part of the degree granting institution.
- Programs which award only a "Certificate of Attendance".
- Programs leading to the M.D. or D.O. degree, graduate and continuing education of physicians, and premedical courses.
- Programs for dentists, optometrists, podiatrists, pharmacists, and veterinarians, including continuing education for these health professionals.
- Programs leading to licensure as R.N., L.V.N., L.P.N., and programs of continuing education for such persons, but programs for nursing-related occupations are included.
- Programs for engineers at all levels with the exception of those programs which you judge to have a significant bio-medical/environmental health content or emphasis.
- Programs for natural scientists such as biologic and microbiologic scientists.
- Programs for social scientists, including psychologists.
- Programs for social workers at all levels with the exception of those programs which you judge to have a significant medical or psychiatric content or emphasis.
- Programs for mathematicians and statisticians at all levels with the exception of those programs which you judge to have a significant health statistics content and emphasis.

QUESTIONNAIRE III

NOTE: This information is being collected under a Federal contract.
Response is voluntary. There is no penalty or loss of benefit for
non-response. The information will not be treated as confidential.

SECTION A—INSTITUTIONAL DATA

1. Responding Institution

Name

City

State

Zip

OFFICIAL USE ONLY

SECTION B—PROGRAM IDENTIFICATION

2. From the enclosed GLOSSARY OF OCCUPATIONAL TITLES, indicate in the boxes below the TWO-DIGIT number of the major category into which your program falls.

--	--

MAJOR CATEGORY

3. From the occupational titles listed under the major categories of the GLOSSARY, indicate in the boxes below the FOUR-DIGIT code number of the occupation which most closely resembles that for which your students are prepared.

--	--	--	--

OCCUPATIONAL TITLE

If nothing in the GLOSSARY approximates the occupational title for which your students are being prepared, indicate the occupational title which describes your training efforts.

If you have indicated that no occupational title in the GLOSSARY approximates that for which your students are being prepared, provide a description of the duties commonly associated with this occupational title.

If your program's occupational title was not listed in the GLOSSARY, please send any materials you have to describe further your program, i.e., catalog, brochure, etc., when returning the questionnaire.

APPENDIX G—SURVEY INSTRUMENTS

Continued

4. By what title is this program known at your institution?

FOR ASAHIP USE ONLY

SECTION C—PROGRAM CHARACTERISTICS

5. Indicate the MINIMUM previous education REQUIRED for entry into this program.

NOTE: If it seems appropriate for you to check more than one, you may be reporting more than one program on this form. Please re-examine the definition of "program" found in the INSTRUCTIONS.

(01) ☐ 8TH GRADE OR LESS

(02) ☐ SOME HIGH SCHOOL (Specify minimum grade)

(03) ☐ HIGH SCHOOL DIPLOMA OR CERTIFICATE OF HIGH SCHOOL EQUIVALENCY

(04) ☐ LESS THAN 2 YEARS COLLEGE

(05) ☐ 2 YEARS COLLEGE (without Degree)

(06) ☐ ASSOCIATE DEGREE

(07) ☐ 3 YEARS COLLEGE

(08) ☐ 4 YEARS COLLEGE (without Degree)

(09) ☐ BACHELOR'S DEGREE

(10) ☐ MASTER'S DEGREE

(11) ☐ DOCTORAL DEGREE

SPECIFIC HEALTH TRAINING

(12) ☐ Basic Preparation in Occupation or Discipline for which this is an Advanced Course

(13) ☐ Pre-professional Education in the Health Field Represented by this Program

(14) ☐ Registered Nurse Preparation

(15) ☐ Certification or Registration in an Occupation Other than the Occupational Area Covered by this Program (ASMT, ARRT, COTA, etc.)

(16) ☐ Other Specific Health Training, i.e., Ambulance Attending, First Aid, etc. (Please Specify)

OTHER MINIMUM EDUCATION REQUIRED (Please Specify)

6. Indicate below ONLY the specific academic background(s) REQUIRED for entry into this program. Beginning with number 1, rank the REQUIRED background(s) in their order of importance for entry into the program (i.e., 1 = most important).

(01) ☐ NONE

(02) ☐ BIOLOGICAL SCIENCES

(03) ☐ CHEMICAL SCIENCES

(04) ☐ CLERICAL SKILLS

(05) ☐ FINE ARTS

(06) ☐ GENERAL SCIENCES

(07) ☐ INDUSTRIAL ARTS

(08) ☐ LIBERAL ARTS

(09) ☐ MATHEMATICS

(10) ☐ PHYSICAL EDUCATION

(11) ☐ PHYSICAL SCIENCE

(12) ☐ SOCIAL BEHAVIORAL SCIENCES

☐ REQUIRED ACADEMIC BACKGROUND NOT ELSEWHERE CLASSIFIED (Specify)

6497

7. Indicate the type of program you are reporting. **CHECK ONLY ONE.**

- (1) ☐ **BASIC OCCUPATIONAL PREPARATION** Program designed to provide students with the knowledge and skills needed to work in a specific occupation at the entry level of that occupation. Admission to program does not require previous formal training in the occupation but may build on previous informal training or practical experience. Typically, this type of program grants the first professional degree, leads to certification or licensure, or prepares the student for an entry-level job. The program may be academic at the undergraduate level or may be non-academic.
- (2) ☐ **ADVANCED EDUCATION OR TRAINING** Program designed to provide health workers with formal education or training beyond that which is offered as Basic Occupational Preparation. AND which confers additional academic credit or professional recognition in a specific discipline or occupation. This type of program includes SPECIALTY TRAINING which qualifies the individual in a recognized specialty of his discipline, for which there are specific educational requirements beyond Basic Occupational Preparation.
- (3) ☐ **CONTINUING EDUCATION** Program of educational activities designed to maintain a health worker's proficiency in his occupation. Continuing education updates Basic Occupational Preparation, or Advanced Education.
- (4) ☐ **TEACHER TRAINING** Program which provides individuals ALREADY TRAINED in a health profession with competency as teachers or as educational program managers. Teacher training may include some elements which are advanced education or training, but it is never limited to this.

8. How many calendar months, exclusive of vacation time, will be required for a student to complete this program?

MONTHS

9. Indicate the level at which this program is offered and the specific award granted upon completion of the program (i.e. BS, BA, MPH, etc.) **CHECK ONLY ONE.** (Note: If it seems appropriate for you to check more than one, you may be reporting more than one program on this form. Please re-examine the definition of "program" found in the INSTRUCTIONS.)

LEVEL OF OFFERING

SPECIFIC AWARD CONFERRED

- (01) ☐ OCC/VOC CERTIFICATE I (Less than 6 months)
- (02) ☐ OCC/VOC CERTIFICATE II (6 but less than 12 months)
- (03) ☐ OCC/VOC CERTIFICATE III (12 but less than 24 months)
- (04) ☐ OCC/VOC CERTIFICATE IV (24-36 months)
- (05) ☐ DIPLOMA
- (06) ☐ ASSOCIATE DEGREE
- (07) ☐ ASSOCIATE DEGREE - CERTIFICATE
- (08) ☐ BACHELOR'S DEGREE
- (09) ☐ BACHELOR'S DEGREE - CERTIFICATE
- (10) ☐ COLLEGIATE CERTIFICATE ONLY
(Training at or beyond baccalaureate level)
- (11) ☐ MASTER'S DEGREE
- (12) ☐ MASTER'S DEGREE - CERTIFICATE
- (13) ☐ CERTIFICATE OF ADVANCED STANDING
(Training beyond master's degree level but not at doctoral degree level)
- (14) ☐ DOCTORAL DEGREE
- (15) ☐ CONTINUING EDUCATION CERTIFICATE

APPENDIX H

MATCHING HEALTH OCCUPATIONS TITLES: ASAHP INVENTORY GLOSSARY, 1975, AND DICTIONARY OF OCCUPATIONAL TITLES, 1965 AND 1977

To more fully assist guidance counselors and students in utilizing information on the health occupations profiled in this directory, health occupation titles and codes have been extracted from *The Dictionary of Occupational Titles* (D.O.T.) of the U.S. Department of Labor and are included in this Appendix for matching purposes.

The first edition of *The Dictionary of Occupational Titles* was published in 1939, and was developed and prepared by the U.S. Employment Service. Three revisions have been made to the *Dictionary* since 1939, and the fourth edition is to be released to the public late in 1977.¹ The D.O.T. contains detailed definitions of thousands of occupations found in the U.S. economy and is presented in a classification system arranged alphabetically in group codes by occupations having certain features in common. A wide range of facts about each occupation are included in the D.O.T. descriptions such as tasks performed; knowledge required; machines, equipment, and materials used; physical demands and working conditions; and worker characteristics.

In addition to its regular use in the manpower programs of the U.S. Employment Service and affiliated state agencies, the *Dictionary* has become a standard reference guide for educational institutions, social service agencies, libraries, business and industry, as well as foreign countries where it provides information useful in counseling, manpower training and development, personnel work, and occupational research.

¹Sincere appreciation is extended to Mr. Jules Spector and Ms. Susan Releigh, Occupational Analysts, Division of Occupational Analysis, U.S. Department of Labor, for their invaluable assistance in correlating much of the information for this Appendix.

Information presented in the Appendix Table shown below is divided into three sections. The ASAHP Inventory Glossary of Health Occupational Titles are shown in the left column with matching titles on the same line for the third and fourth edition of the D.O.T. displayed in the middle and right columns, respectively. The third edition *Dictionary* titles and codes were included since guidance counselors are most familiar with this edition and its use. Because of the design and purpose of the Inventory Glossary, not all of the health titles in the ASAHP Inventory Glossary have comparable listings in either the third or fourth editions of the *Dictionary*. Glossary Titles were developed to cover the range in names of specific award programs at educational institutions and some program names do not correspond exactly to an occupation referenced in the *Dictionary*.

No attempt will be made to explain the D.O.T. classification system in this Appendix. The reader is referred to *The Dictionary of Occupational Titles*, 1977, Fourth Edition, U.S. Government Printing Office, Washington, D.C. 20402, for a complete introduction to the D.O.T. and instructions for use.

Suggestions for Use

The Dictionary of Occupational Titles can be a valuable resource to students who are interested in pursuing a career in the health field. First a student should review the brief descriptions of health occupations listed in the Inventory Glossary of this Directory (Appendix G), and after identifying specific occupations of interest, he can identify D.O.T. codes for these occupations by referring to the table in this Appendix. The occupations can then be located in the D.O.T. for further reference and student-directed study of the occupation.
